The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, and 6-8, are rejected under 35 U.S.C. 102(b) as being anticipated by Tseng (U.S. Patent 5,552,334).

Tseng discloses a method of forming a rectangular or square shape opening 34/35/36 through a masking layer comprising utilization of at least two sequential photomasking steps (Figures 1, and 2A-2C, Column 4, lines 35-43, and 55-59, and Column 5, lines 15-17), which in combination form the opening through the masking layer but which are not sufficient alone to form the opening through the masking layer (Figures 1-5), the photomasking steps each comprising utilization of an etch to pattern the masking layer while a patterned photoresist mask is over the masking layer and each utilizing a separate photoresist mask from one another, the masking layer being entirely of a single uniform composition (Figures 1 and 2A-2C, Column 4, lines 35-45, and 55-59, and Column 5, lines 15-17), wherein the masking layer is over an electrically insulative material 22 (Figures 2A-2C), and wherein the opening is for forming a capacitor container within the electrically insulative material (Figures 7-8).

Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 4, 5, 9-21, and 29-42, are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
